Subject: Merry Christmas, and thank you

Hi Della and Dan

We wanted to touch base with you and send you some pics of Genevieve (Ginny). She is the best dog!! Where do I begin?? We have had intellegent dogs before, our other dog is both intellegent and well trained, but NEVER have we had a dog with her temperament!! She is incredibly sweet, gentle, and yes, easily trained. Very Smart! But her temperament is what sets her apart from any other dog. She plays, yet she is gentle, no puppy roughness to her. She is constantly at my feet or Tim's feet no matter how many times we move , she gets up and follows. Even the vet who checked her out said she was just amazing. We went into the vets office and she did not even pull on her lease, better yet, she jumped up on the bench and laid down beside me and never even offered to bark at the other dogs, but she was not scared. She LOVES our cat, and he loves her too! They play every morning and have even napped together! It is so cute! Our cat seems happier and more social now, he comes out and just hangs out near her. Our other dog (who mainly lives in the garage) thinks she is just beautiful! He is neutered, but he is always happy to see her and she is happy to see him. He is more high strung so she tends to watch him with curiosity because he can't sit still and she is the polar opposite. She COULD NOT be a better socialized animal. OUR children ADORE her. She sleeps in her doggie bed beside our bed all night and helps me wake them in the AM by licking toes and fingers. She actually follows them, and loves to run and play with them in the house or outside. She even tucks our son in and sleeps on his bed for a while before she comes to her bed. We could not love her more. She is unbelievable! Thank you for breeding and raising such a well socialized dog. Her sweet mellow nature is uncommon among dogs. I am trying to send pics with the email. We have more of her at this point than we have of the kids (in the past month)hahaha. Warm wishes and thanks to you. We'll keep in touch.
Tim & April Fizer & family
