Hi. We just wanted to let you know that we named our puppy Caleb. He is wonderful!!!! He just got back from his first camping trip, and he loved it. I will email you pictures later this week.

Thanks for a GREAT puppy!

Della,

I've been meaning to send you a note about Molly. Ed and I took one of the 2 remaining black females you had from the 8/18 litter of standards. We named her Molly and she has been a true delight. She now weighs 25 lbs but acts like she is AJ's size when she is hungry or wants us to play with her! Typically poodle, she has learned every trick we teach in about 3 minutes! Her only problem is that she doesn't seem to associate the need for a sign with the need to go outside and take care of business. We're working on that and the "accidents" are at least getting fewer. I have groomed her (face and feet) every week and she allows it for treats. We've also cleaned out those ears - much to her frustration!

Hope all is well with you and that you have a great Thanksgiving!
Holli Baird
