Attach: MISSY AT 4 MONTHS.pdf
Subject: Missy (Moose)

Hi Della, Just a brief note to update you on our puppy. Missy just started obedience training. I am working with her each day about 30 minutes. She is doing well with the training but all poodles always do well, they are so smart, and Missy is really a joy and really is especially smart. The picture was taken at 4 months. I took Missy for a trim-just her nose and feet right now. I enjoy her beautiful straight hair and I know that as soon as I clip it, her hair will really be curly. Straight hair will be nice for a while. Her St. Patrick Day picture is attached. I will be sending more pictures to keep you up with her growth. Carole Moak, Clinton, MS
